

In the Specification

Applicant proposes replacing the current specification with the substitute specification enclosed herewith. A marked-up copy showing the changes to the specification is also enclosed.

In the Claims

Please cancel claims 16 and 20-41 without prejudice or disclaimer.

Please add new claims 42-53 as follows.

RECEIVED

APR 02 2002

GROUP 3600

42. (New) A door for an automobile vehicle, comprising:

a lower door part without guide means for a moving window; and
an upper door part that comprises:

- a) a window assembly including a fixed window panel having an inner surface that faces an interior of the vehicle upon which the door is to be mounted, and at least one movable window panel adjacent said fixed window panel and adapted to open and close an opening in the upper door part;
- b) a frame connected to and supporting said window assembly, said frame is connected to said fixed window panel at only the inner surface of said fixed window panel; and
- c) support elements connected to said frame, said support elements movably supporting said movable window panel such that said movable window panel is movable so as to open and close said opening;

and further including means for fixing said lower and upper parts to each other at an assembly area of said door, said assembly area extending approximately horizontally and corresponding to a top of said lower part and a bottom of said upper part.

43. (New) A door according to claim 42, wherein said support elements comprise rails fixed to said frame.
